AI ENGINEER FRESHER

Hanoi - queanh010702@gmail.com - (84) 367531963 - Vietnam

INTRODUCTION

I am a recent graduate with a degree in Business Data Analytics, equipped with essential skills for an AI Engineer, including proficiency in programming languages such as Python, SQL, and R. My expertise particularly lies in Natural Language Processing, where I have hands-on experience with models like BERT. I am also familiar with machine learning algorithms, data preprocessing techniques, and developing AI solutions. I am eager to start my career as an AI Engineer Fresher, where I can apply my knowledge to real-world challenges and contribute to the company's technological advancement. I am confident that my enthusiasm, problem-solving skills, and strong sense of responsibility will add significant value to the organization, and I look forward to the opportunity to contribute to its growth and innovation.

OBJECTIVE

My short-term goal is to acquire comprehensive knowledge, skills, and practical experience in the field of AI. In the long term, I aspire to contribute to the success of large-scale projects and advance to the position of Junior AI Engineer within the next two years, making meaningful contributions to the enterprise's sustainable growth and innovation.

EDUCATION

Bachelor of Business Data Analytics

Sep 2020 - Aug 2024

Vietnam National University - International School, Hanoi

- Cumulative GPA: 3.70/4.0.
 - Relevant coursework: Data Mining, Statistic, Visualization, Machine Learning, Artificial Intelligence.
 - Thesis: Using **Machine learning** for Stance Detection.
-

WORK EXPERIENCE

Data Scientist Intern, FSI Investment and Technology Development JSC

Feb 2024 - May 2024

- Conducted extensive research on **Natural Language Processing** methodologies and applications to enhance understanding of the field.
- **Developed** and **implemented** the **FastSpeech2 model** for Vietnamese language processing.

Relationship Management, Vietnam International Commercial Joint Stock Bank

Jun 2023 - Sep 2023

- **Analyzed** and **entered data** into financial statements.
 - Prepared detailed **financial analysis reports** for small and medium-sized enterprises (SMEs), assisting in evaluating their financial health and creditworthiness.
 - Completed and **reviewed credit transaction documentation**.
-

ADDITIONAL INFORMATION

- **Programming:** Python, SQL, R
- **Software:** Tableau, Stata
- **Languages:** Advanced English, Certificate of English proficiency B2
- **Certifications:** Google Data Analytics Certificate - Coursera
- **Activities:** Participate in scientific research at the 16th Student Scientific Research Conference of the International School - Vietnam National University
- **Other:** I am currently the lead author of two research papers awaiting publication: "Enhancing Vietnamese Stance Detection: Overcoming BERT Token Limits by Leveraging Text Summarization" and "Detecting Youth Mental Health Issues on Social Media with Deep Learning."
